

PROJECT PROFILE

Loomis Chaffee School

PROJECT

Loomis Chaffee School
4 Batchelder Road
Windsor, CT

OWNER

Loomis Chaffee School
4 Batchelder Road
Windsor, CT

DETAILS

K-13 White
15,000 Square Feet
3" Thickness

The follow-up to last month's Project Profile is even more impressive. The second case study is Loomis Chaffee School in Windsor Connecticut. Here, the K-13 was applied for thermal and acoustical purposes, providing an R-Value of 15 and N.R.C. Ratings of 1.00. The application has survived 25 years of teenage boys in a gymnasium environment. Imagine what this would look like now if it was semi rigid fiberglass panels or homasote tiles? For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
