

PROJECT PROFILE

Sabis Charter School

PROJECT

Sabis Charter School
160 Joan Street
Springfield, MA

ARCHITECT

Harriss Architects Inc.
250 Third Avenue North
Minneapolis, MN

DETAILS

K-13 White
10,000 Square Feet
2" Thickness

The students at the Sabis Charter School in Springfield Massachusetts will never appreciate the acoustical performance of their new gymnasium, but the teachers and parents will. Applied at a 2" thickness over "N" type metal decking, the performance is striking as you walk into a room with such volume. The application is providing a Noise Reduction Coefficient of 1.05 along with enhancing the heat loss with an R-Value of 9. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atincorporated.com.
