

PROJECT PROFILE

Stafford Elementary School

PROJECT

Stafford School
212 Louisiana Avenue
Bristol, CT

ARCHITECT

C.J. Lawler Associates
7 South Main Street
West Hartford, CT

DETAILS

SonaSpray "fc" White
30,000 Square Feet
.5" Thickness

The next time someone asks how durable K-13 and SonaSpray "fc" are, show them the next couple of Project Profiles. This first case study is Stafford Elementary School in Bristol Connecticut. The SonaSpray "fc" was applied in 1986 following an asbestos abatement project. This picture, taken in September of 2011, highlights the unparalleled resiliency of sprayed on cellulose based products. Can you find a gymnasium with a 25 year old drop ceiling that would look anything like this? For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ www.atincorporated.com.
