

# PROJECT PROFILE

## East Providence Schools

### PROJECT

East Providence Schools  
80 Burnside Avenue  
East Providence, RI

### ACOUSTICAL ENGINEER

University of Hartford  
College of Engineering  
Hartford, CT

### DETAILS

K-13  
24,000 Square Feet  
1.5" Thickness

Not one, not two, but three gymnasiums completed over the recent one week vacation for the East Providence Rhode Island School Department. Due to the size and construction materials used in these gymnasiums/cafeteria, the sound levels were deafening during lunch and gym classes. K-13 was selected for the Noise Reduction Rating of 1.05 when applied to fluted metal deck. The material was also applied on the perimeter walls down 10 feet to further reduce reverberation. For more information regarding K-13 call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
